WORK EXPERIENCE

Doran Jones Inc.   Dec. 2021 – Present
Frontend Engineer   *Tampa, FL*
- Developed and maintained scalable web applications for a leading financial institution (Citigroup) using Angular and Nx, ensuring high performance, responsiveness, and providing cohesion across technical teams working within monorepos.
- Implemented complex business logic and data visualization features using Angular components, services, and external libraries and APIs.
- Led frontend development of a greenfield application in Citi's human resources department:
    o Established unit testing and end-to-end testing strategies using Jest and Cypress
    o Constructed multi-environment CI/CD pipelines using Bitbucket, Jenkins, and Sonarqube
- Assisted development of shared UI libraries using Storybook.
- Coordinated and planned development with cross-functional teams (Java developers, UI/UX designers) in order to manage timelines efficiently, ensure code reusability for future requirements, and strategize problem-solving approaches.
- Provided technical leadership and mentorship to junior developers, fostering a culture of knowledge-sharing and continuous technical self-improvement.

Avocat Group   Sep. 2020 – Sep. 2021
Revenue Operations Manager   *Tampa, FL*
- Analyzed and interpreted market data and territory research to deliver top-funnel opportunities to SDRs and Account Managers.
- Facilitated the transfer of internal market data from legacy CRM systems into new ones (Zoho, Outreach, ZoomInfo, Affinity).
- Spearheaded company website updates using Wordpress and Divi.

First Coast News   Jan. 2020 – Sep. 2020
Account Executive   *Jacksonville, FL*
- Identified and developed new local accounts through prospecting, media spend research, campaign ideation, and presentations.
- Conveyed value to clients and prospective clients regarding a wide selection of traditional media, sponsorship, digital, and proprietary OTT products.
- Built presentations, campaign materials, and programming schedules to increase cost-efficiency and reach/frequency for existing strategies.

- Studied abroad across Europe for Business & Politics in the E.U. (Richmond American University, London).

OTHER STUFF

Outside of work, I take the time to learn new technical frameworks and create projects of my own. My "personal" tech stack usually involves React (or Next.js) along with Node.js, and a noSQL database like MongoDB or an SQL database manager like PostgreSQL.
